

Certificate of Conformity

Easy Stair – Temporary Staircase

BSEN131 Standard SWL: 250kg

Easy Stair supplied by Safety Platforms Ltd is designed to provide a safe means of access between floors for internal works.

The unique design provides a safe alternative to ladders.

Easy Stair conforms to the requirements of current safe working practices and the work at height regulations.

Easy Stair complies with BSEN131, the British standard for portable ladders.

Easy Stair does not comply with the requirements for a permanent staircase or a public access staircase.

Easy Stair is manufactured in a quality-controlled manufacturing facility and as such individual items do not need certification or testing.
